

35 Technologies Group, Inc.

Quality Policy

***Price and delivery with expected
quality achieved through continual
improvement and teamwork***

35 Technologies Group, Inc. is dedicated to exceeding our customers' expectations. Top management has defined, documented, and implemented the corporate Quality policy which includes our continued commitment to quality and quality improvement. Our policy sets the framework for setting our goals and objectives for continual improvement of the Quality Management System and is committed to satisfy all applicable requirements.

The quality policy addresses the organizational goals, expectations, customers' needs. The Quality Policy is documented, communicated, understood, and applied at all levels of our organization. Our Quality Management System is relevant and available to all interested parties which mainly include our suppliers, customers and potential customers along with statutory and regulatory authorities.

Joe Norelli, VP
35 Technologies Group, Inc.
